

As the tech firm that created the mobile world, and with more than 54,000 patents to our name, we've made it our business to make a mark. When joining our team at Ericsson you are empowered to learn, lead and perform at your best, shaping the future of technology. This is a place where you're welcomed as your own perfectly unique self, and celebrated for the skills, talent, and perspective you bring to the team. Are you in? Come, and be where it begins.

Developer / Tester – Packet Core (f/m/d)
Location: Aachen
Req ID: 542804

Be part of a collaborative, fast-paced, high-performance organization in a diverse team working with ground-breaking technology! We are looking for Junior & experienced testers / troubleshooter who can contribute in Product development & Customer support for 5GC products. We welcome your application!

You will

- Be part of one of our teams in Herzogenrath where you will design, execute, and evaluate test cases.
- Perform troubleshooting and problem solving of complex products.
- Continuously seek new areas of improvements in the system and function test discipline.

To be successful in the role you must have

- BSc/MSc degree in Computer Science, Engineering Physics, Mathematics, or the equivalent level of knowledge.
- Interest about quality, customers, and passion for finding faults.
- A passion for troubleshooting and digging into complex problems where it is not evident what causes the failure or other symptoms.
- An energetic, positive “we can do it” attitude towards challenges.
- Interest in continuously develop your knowledge through experience as well as learning, collaboration and sharing knowledge with others.
- Basic understanding for IP protocols, IP-based routing, 3GPP standards, UNIX/LINUX, Test Methodology and Test Automation.
- Knowledge in Python/Java. Git knowledge is an advantage.
- Cloud Technology (e.g. Scalability, service-based architecture, Kubernetes and network plugins, helm charts) knowledge is of advantage.

As an experienced tester you must have very good knowledge in at least one of the following areas:

- Packet Core products
- Virtualization and Cloud technologies
- Automation/Orchestration

What's in it for you?

Here at Ericsson, our culture is built on over a century of courageous decisions. With us, you will no longer be dreaming of what the future holds – you will be redefining it. You won't develop for the status quo but will build what replaces it. Joining us is a way to move your career in any direction you want; with hundreds of career opportunities in locations all over the world, in a place where co-creation and collaboration are embedded into the walls. You will find yourself in a speak-up environment where empathy and humanness serve as cornerstones for how we work, and where work-life balance is a priority. Welcome to an inclusive, global company where your opportunity to make an impact is endless.
