

VOSSIUS

We are a renowned, international intellectual property law firm

and we are looking for

Graduates (m/f/d) in Electrical Engineering, Physics or Computer Science or a comparable qualification

for training to become a

German and/or European Patent Attorney

to strengthen our offices in

Düsseldorf and Munich

Please apply with all the necessary documents (cover letter, CV, certificates) using our online application form:

[Online Application Form](#)

or via e-mail to

personalabteilung@vossius.eu

Your tasks will include:

- Training as a European Patent Attorney, optionally also as a German Patent Attorney
- Drafting new patent applications and prosecuting them in Europe
- Serving national and international clients
- Advising on and conducting application and litigation procedures such as oppositions and infringement proceedings

What should you bring?

- An above-average university degree in electrical engineering, physics or computer science or a comparable qualification
- Very good written and spoken English
- German language skills desirable but not essential
- Ability to grasp legal issues quickly

What we offer:

- An excellent training and mentoring program with performance-related remuneration
- A fulfilling and challenging job in an international environment
- Long-term, above-average economic prospects with a leading IP law firm
- Close cooperation with mentors, direct contact with clients and participation in litigation cases
- Commitment to fostering development and creativity
- A great working atmosphere

We look forward to meeting you!
